

Sunday, March 8

5:00 – 7:00pm **Welcome Reception**

Monday, March 9

Evolving Strategies for Aortic Intervention

Co-Moderators: Venita Chandra, MD; William D. McMillan, MD

- | | |
|---------------|--|
| 7:30 – 8:00am | Complex Aortic Disease: Future Devices, Future Interventions, & How to Think Ahead
Darren B. Schneider, MD |
| 8:00 – 8:30am | How AI & 3D Imaging Can Improve Aortic Treatment Robert Chang, MD |
| 8:30 – 9:00am | Moderate Endoleak Management: What to Use and When to Use It Kristina A. Giles, MD |

9:00 – 9:30am **Break**

Thrombectomy & Embolization: Tools, Techniques, & Troubleshooting

Co-Moderators: Parag J. Patel, MD, MS; Scott R. Schultz, MD

- | | |
|-------------------|--|
| 9:30 – 10:00am | My Thrombectomy Algorithm: Arterial and Venous Jay Mathews, MD, MS |
| 10:00 – 10:30am | Coils, Plugs, Particles, Oh My! My Approach to Trauma Embolization Mona Ranade, MD |
| 10:30 – 11:00am | Musculoskeletal Embolization: Tips, Tricks, and Avoidable Pitfalls Sid Padia, MD |
| 11:00 – 11:30am | My AVM Algorithm Jake Hemingway, MD |
| 11:30am – 12:00pm | Case Complications:
Embolization Sid Padia, MD
Thrombectomy Jay Mathews, MD, MS
AVM Jake Hemingway, MD |

12:00 – 3:00pm **Break**

Flow Forward: Next-Generation Venous Interventions

Co-Moderators: Parag J. Patel, MD, MS; Niten Singh, MD

- | | |
|---------------|---|
| 3:00 – 3:30pm | Acute DVT: New & Emerging Devices Mona Ranade, MD |
| 3:30 – 4:00pm | Chronic IVC Recanalization: Tips, Tricks, and the Latest Data/Devices
Steven Abramowitz, MD |
| 4:00 – 4:30pm | PE: Overview of New Technologies Julie Bulman, MD |

4:30 – 4:45pm **Break**

Modern Realities of Clinical Practice: Updates in Policies, Coding, & AI

Co-Moderators: Ehrin Armstrong, MD; Brian DeRubertis, MD

- | | |
|---------------|---|
| 4:45 – 5:15pm | Impact of the Current Political Landscape on Healthcare Systems Pat A. Basu, MD, MBA |
| 5:15 – 5:45pm | AI Analysis for Treatments Including Stroke, PE, and Aortic Pathologies Robert Chang, MD |
| 5:45 – 6:15pm | Revascularization Code Update Julie Bulman, MD |

Tuesday, March 10

Complex Arterial Intervention: Approaches and Outcomes

Co-Moderators: Venita Chandra, MD; Niten Singh, MD

7:30 – 8:00am	Complex Iliac & SFA/CTO Crossing Brian J. Schiro, MD
8:00 – 8:30am	Latest Stent Technologies for Iliac & SFA Misty Humphries, MD
8:30 – 9:00am	Complex Aortoiliac Intervention: CERAB vs Other Techniques and EVAR Devices Darren B. Schneider, MD
9:00 – 9:30am	Case Complications: Aortoiliac Occlusive Disease Jon Faiwyszewski, MD Aortic – Aneurysmal/Dissections Kristina A. Giles, MD

9:30 – 10:00am **Break**

Carotid Compass: Current Strategies and the Path Forward

Co-Moderators: Brian DeRubertis, MD; William D. McMillan, MD

10:00 – 10:30am	Interventional Management of Heart Failure: Update on Barostimulation—Is This the Future? Jean Marie Ruddy, MD
10:30 – 11:00am	Carotid Stenting Is Back: Current Status, Technologies, Indications, and Outcomes of Transarterial Stenting Kenneth Rosenfield, MD, MHCDS
11:00 – 11:30am	The Present and Future of TCAR Nathan Aranson, MD
11:30am – 12:00pm	Case Complications: TFCAS Kenneth Rosenfield, MD, MHCDS TCAR Misty Humphries, MD

12:00 – 2:30 pm **Break**

The State of Venous Practice: Evidence, Access, & Operations

Co-Moderators: Ehrin Armstrong, MD; Parag J. Patel, MD, MS

2:30 – 3:00pm	What Have We Learned From the Most Recent PE Trials? John Moriarty, MD
3:00 – 3:30pm	Management of Dialysis Access Today: Tips, Tricks, and Avoidable Pitfalls Brian J. Schiro, MD
3:30 – 4:00pm	Superficial Veins: The Business of a Vein Center Nathan Aranson, MD

4:00 – 4:15pm **Break**

Emerging Technologies and Practice Considerations

Co-Moderators: Brian DeRubertis, MD; Niten Singh, MD

4:15 – 4:45pm	How to Protect Our Patients and Ourselves: Novel Options for Imaging and Radiation Protection Lindsay Machan, MD
4:45 – 5:15pm	Current Healthcare Systems: Academic Settings, Hospitals, and Private Practice Troy J. Roovers, MBA, MHA
5:15 – 5:45 pm	AI: Where We Are Today? Matthew Lungren, MD

Wednesday, March 11

Renal Rescues

Co-Moderators: Venita Chandra, MD; Scott R. Schultz, MD

7:30 – 8:00am	Renal Denervation: Current Hypertension Management, Where It Fits in the Algorithm, and How to Develop a Center of Excellence Lindsay Machan, MD
8:00 – 8:30am	Renal Artery Stenting: Who, What, Where, When, and How Eric Scott, MD
8:30 – 9:00am	Case Complications: CLTI Eric Scott, MD Mesenteric / Renal Disease Jean Marie Ruddy, MD

9:00 – 9:30am **Break**

Peripheral Perspectives

Co-Moderators: Ehrin Armstrong, MD; Venita Chandra, MD

9:30 – 10:00am	The Current State of Drug Elution Marc P. Bonaca, MD, MPH
10:00 – 10:30am	Tips, Tricks, and Updates: DVA and Post-DVA Management Kumar Madassery, MD
10:30 – 11:00am	New Technologies for PAD: Is PTAB the Future? Jon Faiwieszewski, MD
11:00 – 11:30am	Complex Calcium Modification: Lithotripsy, Atherectomy, and More Kumar Madassery, MD
11:30am – 12:00pm	Medical Management for PAD: GLP-1 Impact, and Considerations for Carotid and Renal Disease Marc P. Bonaca, MD, MPH
